ALLIANCE FOR CAMP HEALTH
INVITES YOU TO BECOME A

HEALTHY CAMP PARTNER

For over **four decades**, Alliance for Camp Health has been invested in creating healthy camp communities. We are a national member-driven organization resourcing **three distinct communities** who serve the heart of camp health. ACH leads innovative efforts, resources, and programs for summer learning experiences. We support camp communities that serve over **20 million U.S. youth** during summer camp and Out-of-School Time (OST) experiences.

Our mission is to promote healthier camp communities. ACH prepares leadership, staff, and healthcare providers to address the wellbeing of youth and young adults in summer learning environments.

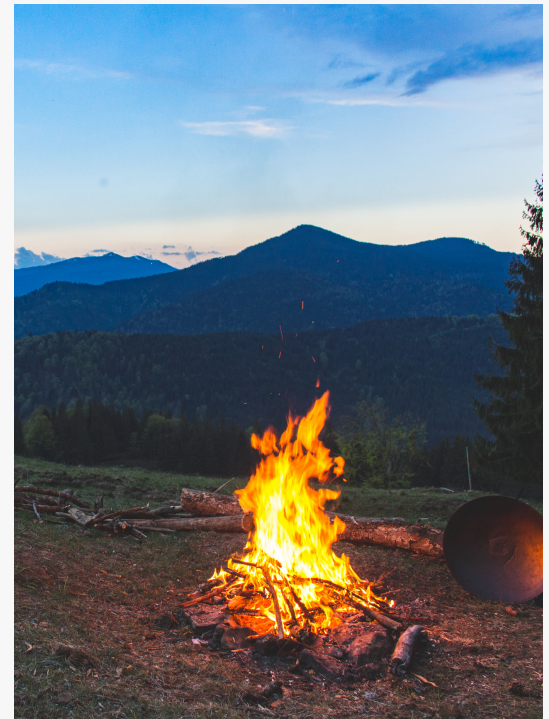

ABOUT

Alliance for Camp Health

We offer education and support that brings together the experts in camp to address injury prevention, illness response, mental, emotional, and social health care, behavioral health support, and risk management.

ACH hosts **multiple events, webinars** and an **online education center** for self-directed learning and produces several publications. Our flagship publication, **CompassPoint**, is the leading source of best practice health information. These resources equip the care Directors, Leadership Staff, Healthcare Providers, and Behavioral Health Specialists offer.
