

March 4, 2024

Dear Pilot Site Participant,

Thank you for being on our SCJ X ACH “Fight The Bite” Initial Webinar. We are happy to share a space where we could discuss this important new initiative. As we embark on this new journey, We are grateful to have you as a part of a growing movement of camps focused on creating safe and healthy summer enrichment spaces.

The Alliance for Camp Health is a national nonprofit educational organization with a mission of *Creating Healthier Camp Communities*. ACH’s collaboration with SC Johnson (SCJ) is a belief that we could significantly reduce the public health burden of tick-borne diseases in children, on a scale never seen before. An important component to the “Fight The Bite” U.S. Tick-Borne + Lyme Disease Initiative is to provide education and support for camps, parents, and pediatric providers as a means of creating TickWise certified spaces. Through this multi-year project, ACH will lead scaling efforts regarding tick-borne education for US camps reinforcing disease prevention and wellness.

What are your next steps?

- Agree to be one of our pilot sites
- Return a signed MOU to ACH by **March 30th**
- Provide an estimate of campers and staff per camp
- Attend educational webinar in April
- Submit a Tick Training Plan for staff in May
- Disseminate family and camper education materials provided to you by ACH

In addition to this letter, in your email you will find a simple MOU and a copy of the initial webinar slides. Our desire is to partner in this effort in ways most helpful for you and your camp. If you have any questions, feel free to contact Danielle Mars at danielle@allianceforcamphealth.org.

We look forward to receiving your signed MOU’s by **March 30, 2024**. Best wishes for a healthy summer season 2024.
