

My View - MESH (+) Summer Camp | Information for Parents

MESH (+) at Camp

MESH is the mental, emotional, and social health of campers and staff. This summer we will be implementing/updating/enhancing our MESH Program to include *My View - Summer Camp*.

Our goal for this program is to provide better support for campers by understanding their social and emotional needs in a camp setting. This will help us ensure a safe and fun experience at camp for all. Participation is voluntary.

What is "My View" - Summer Camp?

A MESH understanding of campers helps ensure a safe, healthy and fun camp experience. Built on the principles of digital empathy, the "My View" survey tool empowers campers to share critical information about their MESH needs that could impact their stay at camp. Informed camp staff are able to adjust the camp experience to meet campers' needs and make sure each camper has everything they need to succeed.

How is campers information used?

The information that campers share will be seen only by select camp staff who will use their knowledge to support your child's unique needs.

Examples of how MESH might affect camp programming, may include:

- Is quiet or non-social time scheduled each day?
- What reflective activities occur each day related to mindfulness, prayer, or other personal reflection?
- Are there opportunities for campers to engage in low-level, mellow activities with appropriate staff oversight? Campers need space to cool off, alone, away from others, but within the eyesight of staff.
- What techniques or words can staff use when a camper needs a break from others?

Thank you for reviewing this information and talking with your child.

Camper Name: _____

_____ I would NOT like my child to participate in the Summer Camp - My View Screener
